Energetic renovation of the Cabuy barracks - Ghlin

Project Details

Activities
Buildings
Industrial & logistics
Public

Contractors
Franki

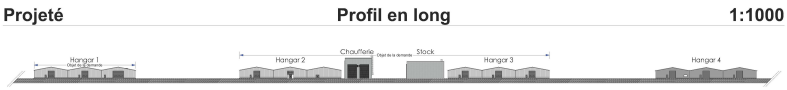
location
Route de Wallonie 18/Z
7011 Ghlin Belgium
Hainaut BE

Client
Ville de Mons

Architects
Groupement A&G Atelier d'architecture Failly & Associés

Temporary partnership
Franki, Tradeco

Start work
10-2024



The energy renovation of the Cabuy barracks will involve renovating the insulation of the 3 main hangars and replacing the 5 oil-fired boilers with a heating network fed by a wood chip boiler, replacing the lighting with LEDs, producing electricity using photovoltaic panels and improving the ventilation system. A new greenhouse will replace the old one, which uses too much energy, thus benefiting from the biomass heating network and new energy technologies.
