9130 Doel Belgium
Oost-Vlaanderen BE

Client
MSC PSA European Terminal

Engineering Office
Alpha studieburo

Span
77m

Construction period
4 months

Start work
09-2015

End of work
01-2016

Construction of a Truck Bridge over St Antoniusweg at the Deurganckdok on the Left Bank/Antwerp.
The Truck Bridge was built on the site of MSC PSA European terminal, but extends over the public domain.
The bridge has a length of 77m and a width of 12m.

The construction work consisted mainly of:

- the construction of the abutments and intermediate piers,
- the assembly of prefabricated girders,
- pouring the bridge deck.

Willemen Infra is a leading, Belgian road construction company with a regional presence in both Flanders and Wallonia. An important asset is that we have all aspects of the construction process under our own management and thus fully control the execution. Moreover, our team of 1,000 well-trained and experienced employees are willing to work at night and over the weekend to make sure they get everything done in time. In addition, thanks to our own COPRO and CSC-certified production and recycling sites, we are one of the leading producers for asphalt and road concrete.
