SPW Direction des voies hydrauliques de Namur et Charleroi

Price
€2.500.000

Span
84m

Construction period
2 years 5 months

Start work
01-2016

End of work
06-2018

Replacement of the 'Pont de Luttre' over the canal Charleroi-Brussels.

Our assignment included:

- Various preparatory works;
- The local relocation of towpaths on both banks of the canal (for the construction of the new intermediate piers);
- The construction of two new abutments and two new intermediate piers;
- The construction of a new bridge deck;
- The construction of new roads connecting to the new bridge, including the construction of new connections to the various public and private entrances;
- The demolition of the existing bridge and the roads connecting to the existing bridge;
- The construction of new accesses to the towpath on the banks of Pont-à-Celles (pedestrian stairs + cycle path);
- The development of the surrounding area and equipment of the structures.
