

## Railway infrastructure works - Uccle

### Project Details

#### Activities

Civil Engineering  
Bridges  
Railway infrastructure & stations  
Road construction  
General roadworks

#### Contractors

Willemen Construct

#### Location

Horzelstraat 300  
1180 Ukkel Belgium  
Brussels BE

#### Client

Infrabel

#### Engineering Office

TUC Rail

#### Construction period

3 years 5 months

#### Start work

01-2011

#### End of work

06-2014

The project consisted of infrastructure work along the track bed platform where railway lines L124 and L26 intersect. Several bridge decks were renovated and noise barriers installed, including 2,000 m<sup>2</sup> of green walls. For the Moensberg station at Uccle, new platforms have been built. Simultaneous with these main works diverse road, bedding, demolition, earth- and sewerage works were performed.

Some figures:

- Earthworks: 50,500 m<sup>3</sup>.
- Steel delivered: 680 tonnes.
- Concrete TPG: 8,800 m<sup>3</sup>.

### Willemen Construct

Boerenkrijgstraat 133
