Construction period
1 year 1 month

Start work
04-2014

End of work
05-2015

Franki, together with Cit Blaton, has been awarded the contract to build a hotel alongside the Chemin de l'inquiétude, opposite the new Mons railway station. Sited near the motorway and next to the train station, the hotel is easily accessible. The centre of Mons and the Les Grands Prés shopping centre are both within walking distance. The building has nine meeting rooms and 125 bedrooms including 15 suites and 4 business suites. More sporty guests find all they want in the gym.
