1 000m²

Surface area subterranean

1 100m²

Construction period

7 months

Start work

05-2014

End of work

12-2014

Building the Jaguar-Land Rover franchise.

The contract is for structural and finishing work with coordination of the various building trades.

The building consists of an underground workshop (free ceiling height of over 4.5 m with a mezzanine), ground floor showroom with offices, and a mezzanine on level +1.

The structure is in concrete, steel and wood, with façades partly in sandwich panels, partly in glass and aluminium cassettes.
